### Gail Glagola

I live in Marcellus. Smile a lot. Think that learning should be ongoing no matter how old you get. Feel that it is important to not only stop and smell the flowers, but plant them, paint them and cook with them!

It's really important to breathe, so we can get a better perspective on what we want to accomplish.

I feel that every student brings something of value to class and it's up to the teacher to draw that out. (Pun intended??)

*"Play' she says and we do. Gail believes in loving art and color and she inspires her students to do the same. Nothing is impossible: nothing is hard when Gail is the teacher. She makes people believe in their ability to create- and they do."*
